AN INSTITUTION ARRIVES AT AN INSTITUTION.

WHAT CHANGES FROM A MARKETPLACE

The first surface a member ever sees is not a search bar — it is a **signed deal under PSA**, named, with an honorific.

There is no public listing, no "find a property"; the experience opens by recognizing the member and showing the one thing on the table for them now.

DEAL DETAIL WATCH

WHAT THE MEMBER SEES

Six deals on the table — every one under **signed PSA**, every one with a real path-to-close pinned to today, every one with a hero return number that survives a 0.6-second glance. The first impression is not a marketplace; it is a curated table

where the work has already been done.

03 The Deal Card.

ANATOMY OF THE MOST-ENGINEERED COMPONENT

LAYER 1 · PSA BANNER

Every deal carries proof of site control. Members never see speculative listings.

LAYER 2 · PATH-RAIL WITH TODAY PIN

Five stages — PSA, DD, Extension I, Extension II, Close. The pin shows where this deal is right now.

LAYER 3 · TIER A RETURN STRIP · CREAM-GOLD

IRR dominates in Playfair gold. Four supporting return metrics in Poppins. Acquisitions speed-scan in 0.6 seconds.

LAYER 4 · ANCHOR PAIR · PURCHASE & EQUITY

Purchase navy, Equity gold smaller. The single most conversion-relevant decision on the card.

LAYER 5 · TIER B PHYSICAL · SINGLE LINE

Price-per-SF, occupancy, WALT, hold, vintage — five facts on one line. Validates the return.

LAYER 6 · LIVE DATA FEED · CREAM-GOLD STRIP

Foot traffic, climate, tenant credit, macro rate — refreshed on view. Living data on every card.

SIX LAYERS · ZERO AMBIGUITY

No card on any competitor surfaces six layers of intelligence simultaneously. Most show four metrics flat, with no path-to-close, no PSA proof, and no living data. **Hierarchy is the differentiator** — Tier A for return, Tier B for physical, Tier C for living signal — and the result reads as institution-grade, not marketplace.

**INVERTED: THESIS PRECEDES DATA**

The first thing the member reads is not a price or a metric — it is the team's **three-sentence thesis** on why this deal exists. The data follows. Anchor pair below the thesis. Tabs below that. Lock Deal is the only gold action in the chrome.

7. Co-Tenancy & Continuous Operation

7.1 Anchor Co-Tenancy Requirement.

In the event that any Required Co-Tenant (as defined in Schedule 7.A) ceases continuous operation in the Building for a period in excess of one hundred twenty (120) consecutive days, Tenant shall have the right, at Tenant's sole option, to (i) reduce Base Rent payable hereunder by twenty-five percent (25%) until such Required Co-Tenant resumes continuous operation, or...

7.2 Renewal Options.

Tenant shall have two (2) options to extend the Term of this Lease for a period of five (5) years each , exercisable upon not less than ninety (90) days' prior written notice to Landlord, at the then-prevailing fair market rental rate as determined by mutual agreement...

7.3 Right of First Offer.

In the event Landlord intends to sell the Premises during the Term...

UNDERWRITING IN THE BROWSER · GROUNDED IN REAL DATA

Four sliders, four presets — every change recomputes IRR, multiple, and exit in real time. The cash-flow chart redraws as the member moves a slider; stress pills surface single-variable downside. **The data underneath comes from the data room** — rent roll, P12, real financing quotes — not stock assumptions.

Four columns mirror exactly how a deal moves through the member's life with the platform: **Watching** (passive interest), **Considering** (notes, questions, red flags), **Committed** (PSA + wire), **Closed** (realized return tracked). Closed deals never disappear — they form the track record.

A HUMAN RELATIONSHIP, NOT A CONTACT FORM

Two CTAs above the fold — **WhatsApp call from browser** (instant) and **book a 30-minute slot** (scheduled). Below them, the entire conversation thread for this deal is preserved in one place: text, voice transcripts, document references. Closing the deal does not close the relationship.

TERMINAL FRONT-DOCK

08 · DIRECT LINE

09 Lock Deal · Three Lanes.

\$50K STANDARD DEPOSIT · 72-HR WIRE RING · ANTI-FRAUD

terminal.reprime.com/deals/wheels-up-hq/lock

Wheels Up HQ · Lock Deal

\$50K standard deposit · 72hr wire ring on selection

CHOOSE YOUR LANE

Three ways to close.

Terms as headlines, not group names.

LANE 1 · SPEED

7-Day Close.

For institutions with capital ready.
PSA → wire → close in seven calendar days.

DEPOSIT

\$50,000

Hard from Day 1 · escrowed

- DD condensed to 4 days
- Funding pre-cleared at LOI
- No financing contingency

SELECT LANE 1

★ MOST
ACTIVE
LANE

Non-Refundable Day One.

Locks the deal at PSA execution.
Send a signal — to the seller, to the team, to yourself.

DEPOSIT

\$50,000

Non-refundable · Day 1

- DD continues post-lock
- Out only on material adverse change
- Backup buyer queue activates

SELECT LANE 2 →

LANE 3 · INSTITUTIONAL

30–45 Day Standard.

Refundable through DD. Full IC review window. Familiar process for committee-driven institutions.

DEPOSIT

\$50,000

Refundable through DD · escrowed

- Full DD window · Extension I + II
- Full IC + LP approval cycle
- Backup queue activates if released

SELECT LANE 3

72-HOUR WIRE RING

WIRE FRAUD WARNING · ACKNOWLEDGMENT REQUIRED

Terminal will **never** change wire instructions by email.

If you receive any email purporting to update wire instructions, **do not act on it**. Confirm any change

with the team by phone before sending funds. Wire instructions appear in this Terminal surface only.

WIRE TO · ESCROW HELD BY FIRST AMERICAN TITLE

Bank: First American Title Insurance Company

ABA: ●●●●●●●● · Account: ●●●●●●●● (reveal in Terminal only)

Reference: WHEELSUP · DR-LAST · TRM-A739-K2

☒ I understand. Wire instructions only appear here. I will not act on emailed changes.

THE CONVERSION MOMENT, TAKEN SERIOUSLY

Three lanes are not pricing tiers — they are **terms-as-headlines**. Every lane is the same \$50K deposit; the variable is your conviction. The 72-hour wire ring is the only timer that matters. The anti-fraud warning is mandatory and acknowledged before the wire screen renders — institutional respect for the dollar at risk.

TERMINAL: HOW IT LOOKS

09 · LOCK DEAL

PHASE 1 · IDENTIFY UP
TO 3 PROPERTIES

3-property rule (default) ·

START
IDENTIFICATION

A 1031 DESTINATION, NOT A FILTER CHECKBOX

The exchange clock is the page — not a tag on a card. Inventory is filtered against the member's actual **180-day window**; deals that close past it are explicitly marked Out. The qualified intermediary roster is on the page, not buried in account settings. Identification is a workflow, not a search.
